SHRUTI KUMARI

+91-6202484589 | shrutikumari18032005@gmail.com | LinkedIn | GitHub | LeetCode | Portfolio

SUMMARY

Aspiring Software Engineer with a strong foundation in Data Structures, Algorithms, OOPs, and Computer Science fundamentals. Skilled in C++, Python, JavaScript, React.js, and Node.js, with hands-on experience in Full Stack Development, RESTful API integration, database management, and building AI-powered applications.

EDUCATION

SHOBHIT INSTITUTE OF ENGINEERING AND TECHNOLOGY **CGPA**: 8.70/10.0(Till 6th semester). Meerut, Uttar Pradesh
Bachelor of Computer Science and Engineering (Data Science). Aug 2023 - June 2027

PROJECTS

1. **SYNEX GEN** | React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT | source code July 2026 – Present

- Developed a full-stack AI-powered career and technology platform connecting students with internships, hackathons, technical events, and career development opportunities through 7+ core modules.
- Built responsive frontend components and backend REST APIs using React.js, Node.js, and Express.js, with MongoDB integration for data management.
- Implemented JWT-based authentication and interactive features, including Community Q&A, Quiz Arena, gaming, and an AI assistant to support student engagement and technical learning.

2. **GESTURE & FACE CONTROL SYSTEM** | Flask, Python, MediaPipe, OpenCV | source code Oct 2025 - Dec 2025

- Developed a real-time hands-free computer control system using Python, OpenCV, and MediaPipe to recognize hand gestures and facial expressions through webcam input.
- Implemented 10+ hand gesture-based actions for system operations, including application control, screenshot capture, and other computer interactions across 3+ action categories.
- Integrated facial expression recognition and a Flask-based web dashboard to enable real-time gesture detection and interactive system control.

3. AI-POWERED CHATBOT | Python, Flask, Google Gemini API | source code Apr 2026 - May 2026

- Developed an AI-powered chatbot using Python, Flask, and Google Gemini API to generate intelligent responses to user queries.
- Integrated Gemini API for dynamic response generation and interactive real-time conversations.
- Built a Flask-based web interface with backend API integration to provide seamless chatbot interactions.

SKILLS

Programming Languages: C++, Python, SQL, JavaScript
Databases: MySQL, MongoDB
Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Data Analytics: MS Excel, Power BI
Backend Technologies: Node.js, Express.js, Flask, Django, RESTful APIs
Core CS: DSA, OS, DBMS, OOPs
Tools & Platforms: Git, GitHub, Docker, AWS
Data Science & AI: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Machine Learning, NLP, Deep Learning

CERTIFICATIONS

- Full Stack Web Dev. Bootcamp covering React.js, REST APIs, Database, Django, Docker. Certificate link
- Bootcamp covering Data Science, Machine Learning, Deep Learning, and NLP on **Udemy**. Certificate link
- Introduction to Data Science from Cisco Networking Academy covering basics about data. Certificate link

ACHIEVEMENTS

- Winner, Internal Smart India Hackathon 2025 among 30+ teams and 180+ Participants. Certificate link
- Selected for the **Final Pitch** at *Aarambh'26 -The Innovation Challenge* by **DMS, IIT Delhi.** Certificate link
- Shortlisted for the Offline Grand Finale of **HackCraft3.0** at GITM Gurugram. Certificate link
- Participated in Bhartiya Antariksha Hackathon 2025, coordinated by ISRO (Online Mode). Certificate link
- Received a special **Gift Box** as a **Token of appreciation** in TenzorX 2026 National AI Hackathon.
- Solved **85+** Data Structures and Algorithms problems on LeetCode to strengthen problem-solving abilities.
